## WORK

**Major League Hacking** Aug '16 - Present

*Coach*

- Provide resources to students at hackathons nation-wide
- Coordinate attendees, organizers, and judges for successful events
- Mentor attendees with software and hardware problems

**Uber** May '16 - Aug '16

*KPCB Engineering Fellow*

- Updated phone verification back end
- Designed service to message millions of users
- Rebuilt Nodejs translations client library

**Pitchly** Aug '15 - May '16

*Lead Back End Engineer*

- Refactored existing code base
- Converted client issues into concrete features
- Built exporter microservice

**Bunchball** Aug '14 - Sept '15

*Software Engineering / Data Science Intern*

- Expedited server restart times by 50%
- Optimized new database provisioning
- Created enterprise scale social graph
- Built API interface with graph model
- Transferred graph algorithms to queries

**UG Research** Jan '14 - Sept '14

*Reconfigurable Computing Lab*

- Designed educational scripting engine
- Used OpenGL to build graphics engine

**Square Infinity** Fall '12 - Fall '14

*Co-Founder*

- Coordinated freelance contracts
- Created CMS websites for clients
- Built mobile radio streaming app

---

## EDUCATION

**Iowa State University** Spring '17

**GPA** 3.87

**Major** Software Engineering with Honors

---

## LEADERSHIP

**HackISU** Jan '15 - Apr '17

*Director, Vice Director, Tech Lead*

- Organized committee, delegated responsibility
- Marketed event to 750+ registrants
- Planned 5 hackathons with 250+ attendees each
- Interacted with corporate sponsors

**ISU Honors Program** Aug '15 - Dec '15
